

# MANUAL WORK FOR STUDENTS.

Illinois Central Provides Technical Training.

Schools Established Along the Right of Way.

Labor in Shops Alternate High School Study.

(BY DIRECT WIRE TO THE TIMES.) CHICAGO BUREAU OF THE TIMES, Sept. 17.—(Exclusive Dispatch.) An evolution of the educational bureau created on the lines of the Illinois Central system two years ago, by Vice-President W. L. Park, part of the vocational education now being established in various cities along the railroad.

PLAN EXPLAINED. The Illinois Central is acting as a pioneer among railroads in this movement, and excellent results are expected. A statement explaining the plan, issued from the office of Vice-President Park, says in part: "In the shops at McComb, Miss., there are forty-one regular apprentices and, supplementing these with the co-operation of the public schools, an arrangement has been effected whereby twenty-five students, who have reached the high school, will divide their time between the class-room and the shops; that is, these students, each two representing one apprentice, will be received in the shop and trained in such crafts as they may select, spending one-half of each day in the class-room and the other half in the shop, alternating morning and afternoon work. Each student will receive the apprentice boys' pay per hour.

"This co-operative arrangement carries vocational training along with their high school education and equips the boys for life's battle about the time they receive their high school diplomas. Each of the part-time apprentices agrees to continue his work in the shops until he has reached the proficiency of journeyman. Undoubtedly when the practical value of this part-time vocational education is demonstrated, other transportation lines, following the lead of the Illinois Central, will inaugurate this system and in all probability commercial enterprises requiring skilled labor will find it to their advantage to increase the number of apprentices without interfering with or impairing their common school education.

## THE LARGEST DAM.

Canadian Pacific Begins Work at Bassano on an Ambitious Irrigation Project.

(BY DIRECT WIRE TO THE TIMES.) WINNIPEG (Man.) Sept. 17.—(Exclusive Dispatch.) The Canadian Pacific Railway has begun the construction of a dam three miles southwest of its station at Bassano, Alberta, as part of its irrigation system, which will be the largest of its kind in America. It is a composite structure, consisting of an earthen embankment on the south side of the Bow River and a reinforced concrete spillway in the existing river channel. When completed, the embankment will have a total length of 7000 feet with a maximum height of about forty-five feet; will be 350 feet wide at base.

National Committee Makes Bluff at Keystone State and Interferes in New Jersey Situation.

(BY A. P. NIGHT WIRE TO THE TIMES.) NEW YORK, Sept. 17.—After a canvass of the political situation in Pennsylvania, the Democratic National Committee announced today that it intended to make every effort to capture the State. Among speakers assigned to Pennsylvania are Gov. Marshall, ex-Gov. Folk of Missouri and Louis D. Brandeis. The speakers will begin their tours of Pennsylvania next week.

The National Committee today took up in New Jersey Senatorial matter in which Gov. Wilson is especially interested. By mutual agreement, Judge Woodcock and William Hughes, who resigned from Congress to stand

# APPROACHING BALDNESS MAY BE CHECKED BY USING NEWBRO'S HERPICIDE

We frequently hear a hair preparation referred to as a "cure" for baldness. Just exactly what is meant by it in each instance is a question. Baldness is not a disease and hence does not demand a cure. It is a result invariably to be traced to the dandruff germ and if the condition has become chronic, that is, if there is complete alopecia, it is absolutely impossible to approach baldness. Indicated by falling hair, may be checked and if the hair follicles are not dead the hair may be induced again to grow. This is accomplished by regular applications of Newbro's Herpicide, which not only stops the dandruff germ, but also stops the accumulation of sebum on the scalp and thus eliminates the most common enemy to beautiful hair. Soft, glossy, fluffy hair cannot grow on a scalp that is covered with dandruff.

# A DRASTIC CURE FOR CAR STRIKE.

Duluth Council Votes to Take Street Railway Lines.

Act of Legislature Needed to Authorize Bonds.

Telegraph Operators Ready to Strike in Canada.

(BY A. P. NIGHT WIRE TO THE TIMES.) DULUTH, Sept. 17.—The Duluth street railway strike took a new turn today when the City Council adopted a resolution instructing the city legal department to begin an action to take over the street railways as city property.

It is evident that Gov. Marshall has attacked me with less than half a truth. He says I preside over the International Harvester Company. Is it possible that he is so uninformed as not to know that this is not so? I do not preside over the International Harvester Company. In my opinion Mr. Marshall knows who does preside over the harvester company, and, for political advantage to his party, purposely twists his statement so as to not say who does preside over the harvester company and convey the impression that I do.

# LITTLE CAUSES FOR BIG EVENTS.

DOMESTICATED INSECTS EXCUSE FOR NEW TRIAL.

Jurors in Dismissing Case Proceed Against Showing Jury Room With Glass Lectern, and Over the Opposition of the Bailiff Transfer Themselves to Assessor's Office.

(BY DIRECT WIRE TO THE TIMES.) COLUMBUS (Ind.) Sept. 17.—(Exclusive Dispatch.) Whether or not a poor, hard-working little clematis lectern will have anything to do with a man's liberty is to be determined this week in the Bartholomew Circuit Court. Many people are not familiar with clematis by its Latin name, but everybody has a dictionary or ought to have.

When the jury in the case against Enser Reed of Hope, charged with dynamiting the Hope school building, was sent to the room usually used for jury duty in the Courthouse, one of the jurors in looking around the room said he had found a clematis lectern. The other members of the jury knew what would be said if they carried "clematis" home with them and they called the bailiff and demanded another jury room.

The bailiff had no instructions to move them, but the jurors said they did not propose to stay in a room infested with "clematis" and they were moved to the office of the County Assessor.

Whether this had any effect on the verdict of guilty, which the jury returned against Reed, has not been determined. Objectors have been filed against the verdict by the attorneys for Reed on the ground that members of the jury were allowed to talk with persons not members of the jury, while they were deliberating. The defendant's lawyer will file a motion for a new trial.

## ENGLISH TURN TO PROTECTION.

Business Men Learn Lesson from Americans.

They Recognize the Folly of Free Trade.

Uncle Sam's Automobiles Invade Britain.

BY CABLE AND A. P. TO THE TIMES. LONDON, Sept. 17.—Twenty leading British motor manufacturers discussed a campaign to oppose the American invasion at a luncheon given today by Ralph D. Blumenfeld, editor of the London Daily Express, which is promoting a movement against American automobiles.

The formation of a big British corporation or the combination of existing companies, and the establishment of a protective tariff, were plans proposed. Several of the manufacturers made speeches, all agreeing that the British factories and workmen should supply the home market with low-priced machines, many thousands of which are now coming to England from America. They admitted that they could not, under present conditions, compete with the United States in marketing cars selling at \$1000 and \$1200.

### BUGY BETHLEHEM

Steel Company Provides Guns, Armor and Projectiles for New Greek Cruiser.

BY CABLE AND A. P. TO THE TIMES. HAMBURG (Germany) Sept. 17.—A party of engineers from the Bethlehem Steel Company arrived here today to arrange for the installation of four-inch guns, armor and projectiles on the new Greek armored cruiser, the hull of which is to be built at the Vulkan shipbuilding yards at Stettin.

The contract to supply the armor and guns for the Greek warship was awarded to the Bethlehem company, while the Vulkan yard, which competed with the American concern, secured only the contract for the hull and the engines.

### SOCIALISTS SCATTER.

They Are Routed by The Hague Police When They Attempt to Start Demonstration.

BY A. P. NIGHT WIRE TO THE TIMES. THE HAGUE (Netherlands) Sept. 17.—After holding a demonstration today in favor of universal suffrage, a body of Socialists came into conflict with the police here and the rioters were only dispersed at the point of the sabre.

Having been refused permission to parade in the streets during Queen Wilhelmina's progress through the city, the Socialists held a meeting at the race track. After the queen returned to the palace, however, the demonstrators endeavored to make their way to the precincts of Parliament, around which the police had drawn a cordon.

The police made several sabre charges and the rioters were tearfully routed. Reinforcements were called out, as it was feared there would be further trouble.

### CHIEFS BANISHED.

Men Who Took Part in Portuguese Royalist Conspiracy Are Required to Leave Spanish Territory.

BY A. P. DAY WIRE TO THE TIMES. NEW YORK, Sept. 17.—The following official dispatch has been received by the Consul-General of Portugal at New York:

"A diplomatic agreement between Portugal and Spain has come in operation, stipulating: The banishment from the Spanish territory of all chiefs and promoters of the late Portuguese royalist conspiracy; the trial by the Spanish courts of those conspirators who are liable under the Spanish criminal law; that those who have accepted the offer of the Brazilian government to reside there shall not be allowed to return to the Spanish territory for three years; the same will be the course with those conspirators that already have fled to Spain for any other country. The definite convention will be signed to prevent any conspiracy in both territories against the regime of each other. This agreement has been concluded on the most friendly terms."

### SHIPPING BOOM.

BIG BOAT ORDERED. HAMBURG (Germany) Sept. 17.—The South American Shipping Company has given orders for the construction of a second triple-screw steamer.

In view of the prevailing shipping boom in connection with the near approach of the opening of the Panama canal, the company today decided to increase its capacity by \$2,000,000.

### BLOODLESS BATTLE.

DEFENDERS WIN. PARIS, Sept. 17.—The French army maneuvers began on September 13 in Touraine and Poitou, in which 120,000 soldiers participated, were concluded today with a grand battle in which the entire front of the defending army, headed by Gen. Marlon, successfully held the superior forces of the enemy in check until the arrival of reinforcements. French fallers witnessed the battle, traveling from point to point in an automobile.

SOX IN BATTLE WITH CAMPA.

Federals Overtake Rebel Band and Fight in Progress at Sasabe in Altar District of Sonora.

BY A. P. NIGHT WIRE TO THE TIMES. TUCSON (Ariz.) Sept. 17.—Federal troops in command of Col. Sox overtook the rebel band of Emilio Campa at Sasabe, in the Altar district of Sonora, yesterday and engaged the rebels in battle. Fighting was still in progress today. Americans in the Altar district are taking refuge on this side of the line.

## HAIR STOPS FALLING, DANDRUFF DISAPPEARS—25 CENT "DANDERINE"

Save your Hair! Beautify it! Invigorate your scalp! Danderine grows hair and we can prove it.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair, and your scalp will not itch, but what will please you most will be, after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small

strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

### CHARGED WITH MURDER.

Father of Insurrecto Leader Maintains He Is Held Illegally and Will Fight Extradition.

BY A. P. NIGHT WIRE TO THE TIMES. EL PASO (Tex.) Sept. 17.—Charges of murder are contained in the extradition proceedings filed here against Col. Pascual Orozco, Cr., held by United States troops at Presidio, Tex. It is understood a similar charge will be entered against his son, Gen. Pascual Orozco, Jr., leader of the Mexican revolution in the North, if captured on American soil.

United States and Mexican officials here continue denial of persistent rumors that the younger Orozco is held among the prisoners at Presidio.

In the extradition proceedings against the elder Orozco, made by the Mexican Consul at El Paso, he is charged with murder committed in Juarez, Mexico, last June, when it was reported that the rebels who then held Juarez had executed a number of Federal spies.

Col. Orozco has telegraphed friends here that he is illegally held at Presidio, since he crossed to the American side unarmed. He asks that attorneys be secured for his defense.

### DEATH FOR COWARDICE.

Negligent Mexican Commander Is Doomed—Sanjines Says Americans Beyond the Border Are Safe.

BY A. P. DAY WIRE TO THE TIMES. DOUGLAS (Ariz.) Sept. 17.—The Mexican Federal officer responsible for holding back reinforcements for El Tigre while the rebels under Salazar were attacking the town, will be shot for cowardice, according to Gen. Sanjines, commanding the Federal forces in Sonora. The general made an emphatic statement to this effect when informed today that troops sent from Mesquitero to the relief of El Tigre had arrived within ten miles of the town, his house before the town was captured.

"As soon as I find out who was responsible, he will be executed," said the general.

The intended reinforcements arrived while fighting was in progress, swinging off in a different direction and went into camp within sound of the firing.

Consulting Engineer J. W. Malcolm today offered a reward of \$5000 for the recovery of the 21 bars of bullion taken from El Tigre by Salazar yesterday.

If the Mexican government should permit the United States troops to cross the international line to protect Americans in Mexico, a revolution much more serious than the present one would be the result.

This was the opinion expressed by Gen. Sanjines, commanding the Federal troops in Sonora, who spent several hours in Douglas today.

Such an act would be bitterly resented by the great mass of Mexican people, said the general.

"We have the Sonora situation well in hand," said Gen. Sanjines, "and hope within a very short time to be able to guarantee perfect safety to all Americans desiring to return. I do not believe the Americans remaining in the places that have Federal troops are in any danger."

Gen. Sanjines said that the effect of the capture of Gen. Orozco might have no effect in ending the revolution because most of the rebels were not fighting for a cause.

"I consider," continued the general, "that none of the rebels is fighting for a principle except the Socialist element. The others are fighting without a flag and they are merely bandits."

"Salazar is a Socialist leader, but Rojas is just a brigand."

Asked as to the next probable move by the rebels operating south of here, Gen. Sanjines expressed the opinion that they would return to the vicinity of the border.

The general declined to discuss his plans for riding Sonora of the rebel bands.

### COLLEGE GRADUATE A FORGER.

Former Los Angeles Newspaper Man Supports Family With Pen While Serving Prison Sentence.

BY DIRECT WIRE TO THE TIMES. LIVINGSTON (Mont.) Sept. 17.—[Exclusive Dispatch.]—Last night, aged 24, graduate of the law school of the University of Michigan, class of '03; post graduate, Columbia '04, and former news writer in Los Angeles and San Francisco, pleaded guilty here today of forgery and was sentenced to serve eighteen months in the State prison in Deer Lodge.

Kinnard forged a check for \$125 on a Los Angeles bank. He has a wife and baby in Los Angeles whom he plans to support, he says, by writing for magazines while in prison. Frank Morrison, a Minneapolis lawyer friend, made a fruitless effort to keep him from jail.

### TO GO ON STRIKE.

Waiters and Cooks Plan to Paralyze New York Restaurants and Hotels This Winter.

BY A. P. DAY WIRE TO THE TIMES. NEW YORK, Sept. 17.—A general strike of waiters and cooks that will paralyze every first-class restaurant and hotel in the city at the opening of the winter season is the latest plan of the International Hotel Workers' Union. A statement by one of the local union officials says:

"Unless the individual proprietors reach an understanding with the organization of the hotel workers within the next few weeks, the men will walk out on election night and prevent the restaurants from feeding the hungry throngs. With the horse-show week and the opening of the grand opera season following closely, the men will have an unusual advantage over the proprietors."

## TROUBLE MAKER NOW BULL MOOSE.

Center of Many Controversies That Annoyed the Taft Administration Has His Resignation Accepted Promptly by President Taft, and Will Go on Stamp for Progressives.

BY DIRECT WIRE TO THE TIMES. WASHINGTON BUREAU OF THE TIMES, Sept. 17.—[Exclusive Dispatch.] Robert G. Valentine has received the letter of President Taft

accepting his resignation as Commissioner of Indian Affairs. The acceptance was very prompt, for Valentine has been a trouble-maker for the administration, and even now, the Department of Justice, so it is declared in Washington, contemplates an investigation of a charge that Valentine had taken liquor on an Indian reservation, an offense forbidden by law.

Valentine was the stormcenter of an annoying clash which not so long ago resulted in the resignation of William E. Johnson, better known as "Fussyfoot," a special agent whose business it was to detect and suppress liquor on Indian lands. Almost at the same time, the religious garb controversy convulsed the Indian Department, President Taft reversing the order of the commissioner, and is now writing an opinion soon to be made public, passing on the question whether members of religious orders teaching in Indian schools shall be permitted to wear the garb that is an insignia of their order.

There were also a number of other differences while Valentine was in charge of the Indian Bureau that kept the Department of the Interior in a turmoil ever since Valentine succeeded Francis Leupp as Commissioner, and no doubt a sigh of relief went up in administration circles when Valentine stepped down and out.

ROOSEVELT SPLITS HAIRS.

Rough Rider Lands on Tucson's Antiquity Claims and Indirectly Slams Arizona's Constitution.

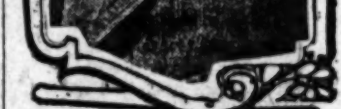

BY DIRECT WIRE TO THE TIMES. PHOENIX (Ariz.) Sept. 17.—[Exclusive Dispatch.] Roosevelt was whirled today in a special train to Tucson, where he made one address, the chief point of which seemed to be that he sided with the claims of Santa Fe, N. M., as the oldest town in the United States, rather than those of Tucson.

At Phoenix, where he spoke tonight, someone in the audience cried out: "What about Bill Flinn of Pittsburg?" To which Roosevelt gave the evasive answer: "A boss whose action is to put the people into supreme power over himself and others is not a boss. He also declared that he opposed the recall of judges in the Arizona constitution while in Arizona last time, and that even now he prefers the recall of judges. From Phoenix, Roosevelt goes to Albuquerque, N. M., where he speaks tomorrow.

REBELS IN FLIGHT.

WASHINGTON, Sept. 17.—The rebels who were driven out of Ojinaga when the Federals retook that place Sunday have evacuated San Francisco, a suburb they still held, and are fleeing up the Rio Grande, according to reports from Gen. Sever to the War Department today.

Gen. Albert of the Mexican Federal forces reached Ojinaga yesterday and has sent cavalry in pursuit of the rebels.

Robert G. Valentine, who recently resigned as Commissioner of Indian Affairs, President Taft accepting the resignation readily and apparently without regret, as Valentine has been under fire repeatedly and gave the administration much trouble. He has joined the Bull Moose party.

## Diamond Week at Cohn's

During this week, September 16th to 24th, inclusive, you can see in our windows and showcases over

\$250,000 in Diamonds

Undoubtedly the greatest, most glitteringly attractive and wonderful display ever made in Los Angeles.

Owing to the fact that on September 4th, 1912, the Police Commission arbitrarily revoked our license—thus putting us out of business—this entire stock, part of our vast accumulation of unredeemed pledges, is for sale; and we have made prices that will close it out very quickly.

This sale gives you an opportunity of buying diamonds for practically the same amount we have loaned on them. You can buy a diamond for as little as \$25—A pretty good one, too—or find gems and collections of gems which will run into thousands.

You never had an opportunity like this before, and never will again. If you ever contemplate owning a diamond, you at least owe it to yourself to inspect this stock and investigate our prices.

President of Buckeye Pipe Line Company Testifies Before Referee that Standard Oil Virtually Controls Corporation, Even After Its Reorganization.

BY A. P. NIGHT WIRE TO THE TIMES. NEW YORK, Sept. 17.—Officers and employees of the Standard Oil Company are still in command of the Buckeye Pipe Line Company, a former subsidiary of the Standard company, according to D. S. Bushnell, the Buckeye's president, who testified today before a referee in the Standard Oil-Waters Pierce litigation.

Mr. Bushnell said he had been elected president of the Buckeye, Northern and Indiana Pipe Line companies and the New York Transit companies in December, 1911, immediately after the dissolution decree against the Standard became effective.

The elections he said, were held within an hour, at the headquarters of the Standard.

MANAGEMENT BY PROXY.

There had been a meeting of the Buckeye's stockholders subsequent to the reorganization, at which the directors were re-elected, Mr. Bushnell said. He obtained proxies from the majority holders of 199,999 shares, which he sent, he said, to John D. Rockefeller, John D. Archbold, James A. Moffett and other stockholders. They were returned, signed.

OWNED FIVE SHARES.

Samuel Untermyer, for the Waters-Pierce Company, took up the organization of the Buckeye company, carrying into effect its part under the dissolution decree. Mr. Bushnell said that the directors elected at the reorganization in December, 1911, were O. S. June, R. L. Bates, T. W. Dillon, L. C. Welch and himself. Altogether they owned five shares, he said, out of 400,000.

All five directors, Mr. Bushnell testified, had been in the employ of the Standard Oil Company or its subsidiaries.

All got raises in pay immediately after their election, and were made officers of the company. One of them, Welch, was made superintendent of the Signal division, displacing a veteran employee named Nite.

### BEVERLY (Mass.) Sept. 17.—President Taft has appointed James A. Harvin of Eagle Pass, Tex., collector at that place, succeeding Robert W. Dowe, who was recently removed.

During the Madero revolution, serious charges relating to the enforcement of the neutrality laws were made against Dowe.

## "California Common"

An investment for men interested in substantial, highly profitable securities.

Investors who have applied in the past for Common Shares in the California & Arizona Land Co. now have the opportunity which formerly was denied them. The company's Executive Board recently decided to place a small allotment—25,000 shares—on the market at their par value of \$1.00.

Some of our prominent stockholders—men of standing who own blocks of both Preferred and Common Shares—have declared their belief that "California Common" has practically no limit of profit. Understand that after the first 7 per cent. dividend has been paid on the Preferred Stock, all Common Stock participates definitely in all remaining profits.

If you are acquainted with the profits in acreage development on a big scale, you can get an idea of this company's operations when we tell you that we have bought and subdivided the famous Cuddeback Ranch—the very crown of California's apple land, in the celebrated Tehachapi Valley. We also own the new industrial townsite of Monolith, adjoining the land where a \$300,000 annual payroll is a fixture. The S. P. Railroad traverses the property.

We urge you to acquaint yourself with this sterling investment before an advance in the selling price of these Common Shares becomes imperative. The company's directors know that their value right now exceeds \$1.00. Terms of 20 per cent. down and 10 per cent. per month are allowed. As to our standing, we refer you to the following: Farmers' and Merchants' National Bank; Security Savings Bank; Hibernian Savings Bank; California Savings Bank; United States National Bank.

Get in touch with us immediately if you want a block of these 25,000 shares of California Common. Write or come to our offices—10 DAY, California & Arizona Land Co., 600 Bldg., 426 S. Spring St., Los Angeles, Cal. F1397.

Credited With Too Many Husbands.

Mrs. Florence A. Richardson, who has three and no divorces, according to the San Bernardino authorities. She was arrested in this city yesterday.

Not Afraid of Men.

THREE HUSBANDS  
HER RECORD?

OFFICER SAYS BRUNETTE MAID  
IS MUCH-MARRIED.

Barstow Man and Redlands Youth  
Declared to Be Recent Victims.  
Another, Believed to Be the Original and Legal Partner, Off for Canada.

Posting as the wife of Clyde Richardson of Barstow, a Southern Pacific Railway employee, Mrs. Florence A. Richardson, arrested in a South-Spring-street rooming-house, was taken to San Bernardino yesterday afternoon by Deputy Sheriff Todd of that city, who says she is wanted on a bigamy charge. According to the visiting officer's statements made to local detectives, Mrs. Richardson has three husbands in the United States and Canada and has never been divorced.

Mrs. Richardson is a brunette, 25 years old, with large, expressive hazel eyes. She has well-shaped hands and small feet of well-defined lines. When arrested by Patrolmen Toomey and O'Garra, she wore a closely-fitting gown, and upon her head was a Martha Washington creation, which matched her dress.

When Mrs. Richardson was taken on a vagrancy charge, Central Station officers did not know she was wanted elsewhere.

The Los Angeles authorities were asked to arrest her, for it was known she had come to this city some days ago.

Mrs. Richardson refused to discuss her case. She would not even tell the officers her maiden name. She inadvertently dropped the bit of information that her mother lives in Seattle.

According to Deputy Sheriff Todd, the young woman was married to a man named Bartlett in Canada on April 13, 1909. After she deserted him in Barstow some months later he returned to Canada, where he is now thought to reside.

It was just two years to the day after she married Bartlett that the young woman contracted a marriage with Richardson in Barstow. According to the officer, the couple did not get along well, and November 13, 1911, the left Richardson and assumed the name of Miss Florence Richardson.

As such she married Clyde Stamel of Redlands in San Bernardino, December 11, last, less than a month after she and Richardson had parted. It was only recently, it appears, that Stamel, who is of good family, ascertained that his supposed wife legally belongs to another.

TO KEEP CHANNEL CLEAR.  
Residents of the San Antonio protection district, recently organized to curb the storm waters, have organized an association and are about to petition the Supervisors to appoint a watchman, whose duty it shall be to keep the Rio Hondo channel clear of debris. Local brush, fast-growing willows and other floating matter will block the channel and start the stream on a new course, they assert. John C. Simmons, an officer of the association, appeared yesterday to tell the board of its tentative plans. The district has more than 300 property owners, and covers about six square miles of territory.

UPSET STOMACH

IF WHAT YOU EAT FERMENTS  
AND WON'T DIGEST.

If You Have Heartburn, Gas, Sourness  
or Dyspepsia You Get Relief in  
Five Minutes With "Pape's  
Diapepsin."

Time! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid or eruptions of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain remedy in the whole world and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know now it is needless to have a bad stomach.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Diapepsin belongs in your home anyway. It should be kept handy, should one of the family eat something which doesn't agree with them or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement in the daytime or during the night it is there to give the quickest, surest relief known.

F. L. Wood, superintendent of the Pullman Company for California, is VISALIA, Sept. 17.—The tax rate for the coming year was fixed at the special session of the Supervisors held today, the total for the ensuing year being placed at \$1.70. This is 20 cents more than last year, the 20-cent addition being for a special road fund. Of the total amount named there are provisions for the usual funds, and also for hospital, the county park, the Board of Trade and roads.

ALCO  
Motor Trucks

The Energy a  
Horse Loses

In hauling a load—even in carrying himself—a horse wastes a great deal of energy. This means a tired horse.

Stop and look at a horse moving along. Note that two of his feet are in the air all the time. See that half the horse's effort is in getting his feet forward.

He picks up his feet, shoves them forward—it is all lost effort.

In other words half his energy is expended with no results.

Assume that every horse possesses one hundred working units. Out of one hundred units fifty are expended

with his feet actually on the ground and fifty with his feet off the ground.

For this lost energy every horse owner pays—and gets no results.

There is no lost effort in the Alco motor truck. The wheels are round and the energy applied from the motor revolves them—"rolling rubber feet."

For every drop of gasoline there are results—and results convince.

The means of inquiring into the motor truck is to call Main 3973 or F2637 and ask to have an Alco Transportation Expert call on you. No obligation to you.

BLOTCHES ON FACE  
DRY AND SCALY

Eczema Began in Hair. Spread to Face. Came on Hand and All Over Fingers. Itching Terrible. Cuticura Soap and Ointment Cured.

205 Kanter Ave., Detroit, Mich.—"Some time last summer I was taken with eczema. It began in my hair first with red blotches then scalp, spreading to my face. The blotches were red on my face, dry and scaly, not large; on my scalp they were larger, some scabby. They came on my hands. The inside of my hands were all little bumps as though full of shot about one-sixteenth of an inch under the skin. Then they went to the outside and between and all over my fingers. It also began on the bottoms of my feet and the calves of my legs, and took on. My I never had anything like it and hope I never will again. The itching was terrible. My hands got so I could scarcely work."

"I tried different eczema ointments but without results. I also took medicine for it but it did no good. I saw the advertisement for a sample of Cuticura Ointment and Soap and sent for one. They did me so much good I bought some more using them as per directions and in about three weeks I was well again. Cuticura Soap and Ointment entirely cured me." (Signed) Danl. Passer, Apr. 8, 1912.

A single cake of Cuticura Soap (25c.) and box of Cuticura Ointment (50c.) are often sufficient when all else has failed. Sold throughout the world. Liberal sample of each mailed free, with 25-c. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

[illegible]

This is a vertical, high-contrast, black and white image. It appears to be a close-up of a textured surface, possibly a book cover or endpaper. The left side shows a light-colored, vertically oriented strip with a fine, repeating pattern, resembling a woven fabric or a book binding. The right side is dominated by a dark, irregular, and somewhat jagged shape that contrasts sharply with the lighter background. The overall composition is minimalist and abstract, focusing on texture and form.

A close-up, vertical view of a heavily worn, textured surface, likely the spine or edge of an old book. The surface is light gray and shows significant signs of age, including numerous scratches, scuffs, and a rough, uneven texture. The right side of the image is dominated by a solid black area, suggesting the inner cover or binding of the book.

**An Unusual Repair Service**  
The responsible repairing of time-pieces—and the remodeling of jewels and jewelry—is a very important Feagans & Company feature.  
We believe that a thoroughly reliable and capable repair service is one of the very greatest assets a jewelry store can have—because it is one of the most valuable services a store can render its public.  
No repair job is too small nor too unimportant to receive our most careful and conscientious attention.  
Watches regulated and examined—and jewels cleaned—free of charge—and welcome.

**MANY FINGERS ITCH FOR OIL.**

Seek Cancellation of Rich Espee Patents.

Twenty Millions Valuation Placed on Lands.

Claim Railroad Officials Filed False Affidavits.

Another big suit involving the validity of patents issued by the government to the Southern Pacific Railroad Company, under the grant of Congress in 1866, was filed in the United States District Court yesterday.  
The land covered by the complaint aggregates less than 10,000 acres and it is all located in Kern and Fresno counties. The value of the property can only be approximated, as the values of all alleged oil land is but arbitrary in the absence of actual development, but it has been roughly estimated at about \$20,000,000.  
The principal complainant in the action is T. S. Minot, a San Francisco attorney, who purports to represent a number of persons who made entries on the land involved. This is the second attempt of Minot and others to wrest from the Harbman interest possession of land alleged to be mineral in character.  
A demurrer to the first suit by the Southern Pacific Railroad Company was sustained by United States Judge Erskine M. Ross in this city several years ago on the ground that the government alone is authorized to bring an action to cancel patents to public lands. An appeal was taken, and the matter is still pending in the United States Supreme Court at Washington. The suit is now prosecuted by F. J. Heney, Attorney Minot having withdrawn.

**TWO SCORE INTERESTED.**  
The other complainants are: W. F. Dixey, J. E. Bonebrake, B. C. Brown, F. Baumgartner, Thomas W. Pack, W. J. Glynn, S. F. Griesim, F. Richardson, G. W. Kelley, R. V. Hall, William Rowe, S. L. Wiley, J. E. Barnett, W. A. Higgins, Z. A. Howland, W. R. Myers, S. Schuyler, C. T. Lehman, F. R. Hooper, H. W. Jackson, J. G. Clark, C. F. Trapp, P. D. Partidge, J. R. Ker-  
n, F. G. Kerndt, H. T. Hardwick, M. Herzog, M. Maher, J. E. Troil, W. G. Backus, D. Smith, H. Stiffler, C. E. Carlson, J. Wilcox.

The defendants are The Southern Pacific Company, the Southern Pacific Land Company, the Southern Pacific Railroad Company, the Kern Trading and Oil Company, James K. Wilson, as trustee, Homer S. King, as trustee, The Central Trust Company and the Equitable Trust Company, both of New York.  
The complaint sets out the legislation and the action of Congress leading up to the granting of certain lands to the Southern Pacific Railroad Company, in evidence in the action now pending in which the government is seeking to declare invalid certain patents issued to the Southern Pacific Railroad Company in the Elk Hills. The land involved in this action, however, is not the same that is being sought by the government in which similar charges of perjury and false information are alleged.

**AGENT ACCUSED.**  
It is charged that Jerome Madden as general land agent of the Southern Pacific Railroad Company filed false affidavits concerning the physical character of the patented lands in controversy. It is also alleged that the Secretary of the Interior, Hoke Smith, was deceived, and caused agents to be issued; that he examined the land claimed by the Southern Pacific Railroad Company and tested the accuracy of the lists submitted by Madden. It is claimed that the filing was approved and the statement made that the land was public land of the United States and within twenty miles of the line of the railway; none of it was denominated mineral; nor claimed as swamp land, nor was there any homestead, pre-

emption, State or other valid claim to any portion of the land.  
The final qualified entry was made January 27, 1894.  
The following claims are involved in the suit: White Plains, Lexington, Ethan Allen, Bunker Hill, Monmouth, Cowpens, Trenton, John Gates, Anthony Wayne, Israel Putnam, Saratoga, Ticonderoga, Butler, Amey, Shawmut, Old Colony, John Hancock, Tremont, Melrose, Amherst, Salem, Thomas W. Lawson, Yorktown, Bennington, Plymouth, Cohasset, Brockton, Nantucket, Lynn, Medford, Woburn, Taunton, Boston, Medford, Woburn, Commonwealth, Boylston, State Street, Webster, Sumner, Pawtucket, Essex, Portland, Augusta, Cambridge, Charlestown, Harvard, Roxbury, Brandywine, Princeton, Rutaw Springs, Concord, Malden, "1915," Balkan, Bowdoin, Yarmouth, Brunswick, Katahdin, Mayquitt, Penobscot, and Massachusetts. In nearly all of the above claims the contention of the orators is for quarter sections (160 acres).

**IN POSSESSION.**  
The claim is further made that the orators are in actual possession of the lands in question under the mining laws of the United States and the State of California, and that they are entitled to the exclusive use and ownership of the real estate; that the lands are vacant, unimproved, unenclosed and wild, and that the Southern Pacific Railroad Company never had either physical or constructive possession of the same; that they are proved oil lands, and were shown to be such by the orators before actual settlement was made. It is further asserted that when on July 10, 1894, the lands were accepted by the defendants they were known to be oil lands, and that the statute of limitation does not run as against the orators.

The prayer of the petition is that the court interpret the act of Congress July 27, 1894, under which the patents were granted, and also the mandatory resolution directing the Secretary of the Interior to except actual settlers from the operations of the patent to the Southern Pacific Railroad; that an interlocutory injunction issue against the Southern Pacific Railroad restraining that corporation from interfering with the rights of the orators; that the defendants be compelled to come into court and set out their claims, if any, to the land; that it be adjudged that the defendants have no right or title to the land; that the claims of the orators be deemed sufficient and valid; and finally that the defendants be enjoined from asserting any claims to the property.

**TOUR OF INSPECTION.**  
Internal Revenue Collector to Look Over Oil Fields and Listen to Com-

plaints.  
Collector of Internal Revenue Parker is in receipt of a communication from the Internal Revenue Commissioner advising him that Cabell, accompanied by L. F. Spear, chief of the corporation division, will reach Los Angeles Saturday, October 5, to inspect the oil fields.

The visit of the commissioner is the result of urgent requests by the oil corporations of Southern California for permission to present to the department objections to the present regulations governing the manner in which oil corporations must make their reports of annual net income, according to the corporation tax law.  
The Washington office will make a careful study of the situation, visiting principal oil fields, in order that an equitable solution may be had satisfactory both to the government and the corporations. This meeting has been arranged by Collector Parker for Monday, October 7.  
The commissioner is also visiting all of the principal revenue districts en route that he may become more closely associated with the working force of the collection districts, and form a closer personal acquaintance with the collectors, deputies and clerks.

**NEW STATES—NEW CITIZENS.**  
Naturalization Examination Finds Many Eager Candidates in Arizona and New Mexico.

Frederick Jones, naturalization examiner, has just returned from his maiden trip through New Mexico and Arizona, following the establishment of the new State governments.  
He held examinations at Yuma, Phoenix, Tucson, Nogales, Tombstone, Clifton and Globe, before the various Superior Court judges. He reports that it is quite evident that the law of procedure employed in these new courts follows closely the laws of California.  
He held a hundred applicants passed the examinations and Examiner Jones says that with the elevation of the former Territories into States there is a general desire on the part of the people to become qualified to assume the duties and the responsibilities of American citizenship.

**SPECIAL ANNOUNCEMENT**  
At no previous season have we ever assembled such a comprehensive and magnificent collection of elegant  
**Costumes, Gowns, Dresses, Wraps, Suits and Coats**  
This was made possible only by the frequent visits of our buyer to New York, and the collaboration of our resident representative in Paris. Our close relationship with the creators of fashions permits us to be first in showing the latest ideas of the world's foremost designers. We are displaying real imported models and adaptations of the following designers—  
Poiret, Paquin, Doucet, Drecoll, Hein, Weeks, Premet and Cheruit  
We are specializing on high-class garments for afternoon and evening functions, and all dressy social affairs—and while our styles are noticeably superior to all former showings—our prices are reasonable for high-grade apparel.  
Only a personal visit to this department can give you an adequate idea of the exquisite beauty of our models. One very charming creation is illustrated in the accompanying sketch. It is developed in black chiffon velvet, with bodice of white net and lace; velvet portion embroidered in violets and silver threads. Skirt draped with wide band of white Bohemian lace, finished on lower edge with band of fur. We cannot describe all of these beautiful creations, but we especially invite your inspection of the following models:  
Evening costume with over drapery of colored embroidered chiffon; bodice of net over shadow lace, long mousquetaire sleeves of black satin charmeuse; adorned with crystal buttons.  
Magnificent ball gown made of cloth of gold, with panel of lace. Exquisite over drapery of gold colored chiffon, hand-embroidered in ribbon flowers and gold beads, edged with gold bugle fringe. Finishing touch of golden brown velvet at foot.  
Another exquisite creation is shown in chameleon chiffon, embroidered in gold threads. White satin foundation with drapery of shadow lace from shoulder, fastened at side of costume with rhinestone buckle. Finishing touch of Russian squirrel fur.

Most Time Saving. Most Natural. Most Safe. No Detention from Occupation, Family or Home. A Radical and Permanent Cure.  
I will explain my treatment for Hemorrhoids, Piles, Fistula, Varicose Veins, Pelvic, Nervous, Blood, Kidney, Bladder and Rectal Diseases.

**Piles, Fistula, Rectal Diseases.**  
These diseases are very common; most frequently found in persons of middle or advanced age; are exceedingly annoying, often very painful, and sometimes very dangerous and frequently unfit one for pleasure or occupation. My treatment and success are the result of years of experience; my treatment is kindly applied. I cure Piles without cutting. If I do not cure your Piles, Fistula and other Rectal Diseases, my treatment does not cost you anything. Gentleness in treatment comes from treating many cases. I guarantee a cure of Piles, Fistula, Ulcers and all curable Rectal Diseases.

**Trusses Seldom Cure Rupture.**  
Disregard for existing Hernias has cost many lives. The smallest hernias are the most dangerous, because of the increased liability to strangulation. I am aware that a great deal of fraud has been practiced in connection with the alleged cure of rupture. I may positively state that I cure Rupture, to stay cured. I cure with perfect safety, and entail no suffering, and do not detain you from occupation.

**WRITTEN GUARANTEE.**

Dr. Tiltson's written guarantee means a cure or no pay for services. The "Guarantee" means that if I cannot cure certain diseases, I refund every dollar you have paid me. My services cost you nothing unless I cure your Varicose Veins, Hemorrhoids, Piles, Fissures, Fistula or any disease I guarantee to cure. My terms are reasonable and no more than you are willing and able to pay.

 The contemplated federation of the republics in Central America should be welcomed. Those people down there might as well understand from the outset that there is nothing in the Monroe doctrine to prevent Uncle Sam from preserving the peace along the banks of the Panama Canal.

**TOO MUCH.**  
 The court of domestic relations in Chicago is a useful institution, but its present judge demands a transfer because his nervous system is breaking down under the strain of listening to the harrowing details of matrimonial infelicities. We recommend for the position, serially of course, a list of prominent novelists recently divorced.

**NO "SAVINGS DEPARTMENTS."**  
 State Superintendent of Banks Williams has notified national banks in California that they must cease advertising that they conduct savings departments.

In his letter of notification he says:  
 "Under the national bank act you have no authority to conduct a savings department. You may, indeed, pay interest on deposits, but the money you receive is demand money and emphatically you cannot loan money on real estate, one of the primary securities for savings departments in savings banks. Your investments and loans are not governed and restricted as is contemplated by savings bank laws, and you cannot give to the public the protection to which it is entitled when it deposits its money as savings."

Mr. Williams adds that the use of the phrase "savings department" by a national bank is deception, for a national bank cannot be departmentalized, and it cannot create a "savings department" as that phrase is understood by the people of California.

**THE NURSES' COSTUMES.**  
 An irate dame with yearnings to local distinction has been agitating the prohibition of nurses' uniforms on the street. She desires to see nurses clothed like ordinary females, regarding that most becoming of costumes, the nurse's uniform, as "a disgusting insignia of sickness." We are assured that the mere sight of the nurse so robed torments our spirits with fear, or recalls to our memory the horrors of the sick-bed, and that such painful and harrowing reminders should be banished from our streets.

Of course, as a mere male, it is not for us to discuss the delicate subject of madam's wearing apparel, but we should like to humbly remark that until the contrary was pointed out to us we had been guilty of the bad taste of considering the nurse's uniform extremely becoming, very refreshing, permeated with an atmosphere of hope and efficiency, and that, far from adding to life's woes, it had always rather cheered us up to recall that, after all, there were some sweet, sensible women left in the world.

**DECLINED TO ANSWER.**  
 In his long and labored speeches at the Auditorium and at the Shrine Col. Roosevelt discoursed on about every subject from the days of Moses down. But he did not deny—for, with his published works accessible in every public library, he could not deny—that he had instructed the rising generation in patriotism, and fairness, and tolerance, by stating that Thomas Jefferson was a "coward," a "liar," and an "influence for evil;" that James Madison was "timid, incapable and feeble" and was "guilty of bringing shame and disgrace to America;" that James Monroe possessed "no special ability" and was a "triumph of imbecility;" and that Andrew Jackson was "ignorant" and "corrupted the public service."

Nor did the colonel say anything about the "moral shortcomings" of Van Buren, or the "mediocrity" of Tyler, the "smallness" of Polk, the "low capacity and mean surroundings" of Pierce and the "smallness of Harrison, Taylor and Fillmore."

The colonel might plead that his failure to further criticize the statesmen and heroes of former generations was due to his belated appreciation of the fact that he had given the American public about all that they could stand of denunciation of the dead.

But this excuse is not available to account for his peculiar opinions concerning classes of men still living and whom he is asking to vote for him. Why did he class foreign-born citizens as people of "profound ignorance and misty ideas of morality?" What was his authority for the statement that Socialists "do not bathe frequently" and "look with abhorrence upon debt-paying?" Why did he say that "small farmers, agricultural laborers and city workmen" are "worse fellows" than "drunken cowboys" and deserve not to be mentioned in the same breath with them?

The colonel cannot say that his attention was not called to these remarkable public utterances of his, and that he was not courteously invited to explain them. Maybe he will yet find time and opportunity to do so. Or maybe his organ and apologist in Los Angeles will yet attempt the task. When Bismarck stuttered and was silent his ass spoke for him.

The one-cent bandanna at 10 cents per is about the size of an aformentioned rebater and grafter of the two pious type, who is now weeping his fish-like eyes over the sufferings of "the poor, persecuted, plundered people." Huh! Virtue with a vengeance! Purity and a Ptolemaic stream!

**THE TRUTH ABOUT CHINA.**  
 The rapid and successful change of China from a despotic to a representative republican government continues to be one of the marvels of the age. Japan, with all her boasted advance toward western civilization, is yet so wedded to middle-century despotism that the public suicide of distinguished statesmen and their wives in token of their loyalty to the dead Mikado was received with acclamation by admiring thousands.

It is different in China. One of the signs of the change there is the fact that millions of Chinesemen cut off their queues to give expression to their loyalty to the new regime and their complete disenchantment from the reign of the Manchu dynasty which centuries ago compelled them to grow and wear queues as a sign of their subjugation.

Recent telegrams to the effect that the new Chinese republic is in a perilous condition are contradicted by Dr. Morrison, the lately appointed political adviser to Yuan Shih-Kai. Dr. Morrison has been for a long time the Peking correspondent of the London Times. In a letter to that journal Dr. Morrison refers to a statement made by a Chinese advocate, a barrister-at-law of Lincoln's Inn, in which he pointed out that "the Chinese republic is an accomplished fact. After a revolution characterized by a rapidity, peaceableness and moderation unique in the long history of the world, the oldest monarchy on earth has become the youngest republic."

Dr. Morrison, says the Boston Monitor, bears witness to the correctness of this assertion and complains of the way in which writers in England "still discuss affairs in China with the most gloomy pessimism, forecasting intervention, universal anarchy, chaos, bankruptcy and the ruin of foreign bondholders."

The people of the new republic of China are divided into three parties which differ in the policies they advocate. But they are not in any sense hostile factions; they are not quarrelsome, they are all devoted to the perpetuity and prosperity of the new republic, and all represent it in the advisory council. The President, Yuan Shih-Kai, has solicited Sun Yat Sen, who was one of the moving and directing spirits of the revolution, to accept the Foreign Office, has placed at his disposal the finest building in Peking, and sent a cruiser in command of a high naval officer to bring him from Shanghai to Taku.

"When I left China on August 6," writes Dr. Morrison, "conditions were everywhere improving. Customs returns proved this conclusively. Expressed in gold, the customs collections of this year promise to be the highest on record. Revival of trade was widespread, and the despite disastrous floods in several provinces. All loans secured upon the customs had been paid to date, both as regards interest and sinking fund, and there was a considerable surplus from native customs accumulating to meet the resumption of the Boxer indemnity payments, which had been suspended since last October.

"All railway loan payments had been met. Every railway in the country was doing well, with aggregate earnings in excess of any previous year. Every missionary and consular report coming from inland China to which I had access reported improvement and progress. How can these facts be reconciled with the theory that conditions are inevitably leading to civil war?"

Dr. Morrison concludes by pointing out that the enormous changes which have occurred have involved the recasting of the whole of the internal machinery of the government. That the change has been effected with such comparative smoothness should inspire hope in the future of the

## Overworked.

country and should enable observers to realize how little foundation there is for hysterical and sensational forecasts of civil war and disruption.

### THE OPEN SHOP AND THE SAVINGS BANKS.

One of the most convincing bits of evidence in favor of the "open shop" and working class prosperity is found in the irrefutable statistics of the savings banks of Los Angeles.

It is admittedly the wage-earner who patronizes the savings bank, and in Los Angeles, a city of 350,000 population, the savings banks record an average deposit of \$500 a head for every male. There are over 150,000 depositors in local savings banks, and since the average family is recognized as four it goes to prove that the merest handful of our citizens are without a savings account. Such general prosperity is remarkable and unequalled, and Labor, notwithstanding its official protestations to the contrary, is quick to take advantage of the free-to-all opportunities that the most favored of cities has to offer.

The largest of our savings banks, with resources \$47,000,000, and 80,000 depositors, has an average deposit of \$600 for every client. Other large savings banks have 30,000, 20,000 and 12,000 depositors, all with very few exceptions, wage earners.

In addition, one third of the people in Los Angeles own their homes, and the whole standard of living and dressing is better in Los Angeles than anywhere else in the United States.

Such evidence effectually refutes such scarehead articles as written by another puffing agitator in the current issue of the Social Democrat, in which he gravely declares that, unless socialism is adopted instantaneously, financial disaster awaits the nation. All the wealth is in the hands of the few, he declares—"a nation composed of a few enormously rich men and millions of propertyless slaves." The situation is an alarming one and challenges the attention of our most careful statesmen.

The latter sentence is true enough. That such individual prosperity should be jeopardized in response to the howls of a few agitators of superficial observation and warped passions is a tragedy that certainly does call for the attention of our wisest statesmen. We would respectfully suggest, however, that the free, untrammelled "open shop" methods of Los Angeles, combined with a praiseworthy emulation of Californian enterprise and backbone, would be a far more effective remedy than chaotic socialism under its present specious leadership.

E. Toopious Earl, in childish glee and mature imbecility, suffered himself to "have fun," a day or two ago, over an alleged cannon, innocently mounted upon the drum of an automobile. Well, whatever else may be said about that alleged cannon, it cannot be truthfully asserted that the "gun" won't "go off" better than did the attempt of Chairman E. Toopious Earl to make a speech at the Bull Moose meeting last Monday night.

### A HISTORIC PARALLEL.

A Some of the old-timers will remember 1872, when Horace Greeley was nominated for the Presidency and was afterwards endorsed by the Democratic National Convention. The motto of both parties was "anything to beat Grant." Seward, Sumner, Schurz, Trumbull, Farnsworth and other great Republican leaders spoke and wrote for Greeley, and on the first of October it looked as if the Tribune philosopher would sweep the country. He had the South solid, and his lifelong record as an abolitionist and a protectionist did not make against him there. Then the tide began to turn and a month later, while Greeley received 2,834,079 votes, Grant received 3,579,970, and in the Electoral College had 286 votes out of 352. Greeley had led in the meantime, and Grant was the only candidate before the Electoral College. B. Grant Brown, who was on the Greeley ticket for Vice-President, received forty-seven electoral votes, and Henry Wilson, who was on the Grant ticket, received 286. History has a tendency to repeat itself. The American people have immense stores

### THE DOMESTICATED MAN.

BY ALMA WHITAKER.

One of our prominent local mammas has been bursting into print on the subject of "How to Train Our Boys." She possesses two of her own and from all signs the poor, little beggars are in for a dreary time of it.

For mamma is an ardent feminist, one of the kind, I should judge, who think that women should have all the privileges of men as well as their own, while men should do all the work of women as well as their own. It is a fascinating creed, and what is more it can be made to work; but all the same, I can't help feeling that the subjugation of man should be carried out rather less precipitately, with at least a shade more of decency.

Mamma is of opinion that all boys should be taught to sew and cook, to wash dishes, sweep floors, clean bathrooms, make beds, polish silver and mend stockings.

Now I think myself it is just as well the men should know how to do these things properly, since they will most certainly have to engage in these domestic exercises if they marry an American wife, unless they can afford to employ professional help. But I do feel it is a shame the poor, little dears should have to do it for their mothers, too. In the "happiest" of modern times very few little girls ever learn to do these things at all, but when they do, it is never expected of them that they should wash dishes for father and hubby, too. Certainly not. If domesticity is necessary before marriage, she takes care to have none after, while many a spoiled little maid who happens to marry for love will take to dishwashing voluntarily after marriage because it is such a nice change.

It is this latter that the men do, of course, and one must admit that voluntary service has its advantages. Now, if mamma trains Bobby deliberately for domestic service in his youth, we shall have him revolting against it later on just as surely as the girls do now. This is a sordid trick to play on future wives and one that is hardly likely to improve mamma-in-law's popularity.

Still there is one comforting side to the situation. Obviously, if the social status of the sexes is to be completely reversed, modern mammas evidently mean to see to it that Bobby grows up like a domesticated old-fashioned girl of great-grandmammas' time rather than like the perky, fashionable, modern miss of today. This is as it should be, of course, if women are to enjoy any of the so-called masculine "privileges," as it is the privileges he used to have that we want, not those he at present enjoys.

There is one sign that is still sadly missing, however, to portend the real supremacy of woman. Several of the greatest women writers, Olive Schreiner, Sara Grand and so on have noted with disgust that the period during which woman was in the greatest subjection male poets poured forth the most sickly sentimental effusions to her charm and beauty. Women were never held in lower esteem than when they were being lauded to the skies by the flower of the literary world.

Very well then. Will our many and various lady poets kindly turn their attention to this important branch of the woman's movement. A few stirring, epoch-making odes to male beauty, a batch of sonnets to the male eyebrow, a paean of eulogy to the male neck and shoulders, and a few touching ecstasies over the male form divine will go further to hasten on the Cause than any amount of straightforward propaganda.

Whereas, formerly soldiers toasted "My mother" with a fine show of sentiment, will militant suffrage now be kind enough to toast "My father" with a like emotion? In fact, dear sisters, it would seem that we must our lowest abasement through a surfeit of flattery—and we all know that this is a charm to which the male is equally susceptible.

"This is a maxim of the schools that flattery is food for fools."

"But now and then your men of wit will condescend to take a bit."

Subdue them with flattery, that's what we have to do. Just tell them how beautiful, how virtuous, how clever they are until we have them all groveling at our feet. Raise them on a pedestal until they fall over each other in their keen competition to become our adoring slaves. Call them our kings, our princes, our noble lords, our governors—get some female Gibsons and Harrison Fishers to perpetuate their masculine beauty in all its glorious phases, until they regard the darning of our stockings and the preparing of our food as the zenith of life's masculine triumphs.

Obviously, this is the wisest, nay the only, course. For did not our great-grandmothers, who received such extravagant literary praise at men's hands, perform all the domestic and menial tasks for the men of their age? And they were ever ready to train up their daughters even as the afore-said prominent local mamma is ready to train her boys in the domestic arts. With what result, pray? Why, that in but three generations woman has come to cordially despise the domestic arts and to shamelessly relegate them to man wherever and whenever possible. If men admired the people who did that sort of thing so much, then let 'em do it themselves, would seem to have been their idea.

Wherefore this new plan for the domestic training of our boys may, after all, be but a man's movement for retaining the supremacy of the woman. Perchance, the lord of creation has profited by the sorry effects of early domestic training upon our girls and means to see to it that the case is reversed in the next generation. Girls who never washed a dish in their life before marriage have been found to take to dishwashing with unbelievable zest, even as the male of the species. And so surely will a man trained to dishwashing in his youth revolt against dishwashing in his manhood. Can that revolt be made sufficiently complete, therein lies the salvation of man from the despotic tyranny of the coming woman.

I hope it all sounds quite sensible. I'm sure it is.

**The Quiet Pupil's Attention.**  
 [The Spectator:] It happened in the chemistry class, and the professor had just asked someone to define gravity. The somewhat hurried definition contained the word "pull," and this irritated the instructor. He declared that there was no such energy in nature as pull. A young woman in the front row caught the professor's attention.

"I would like to ask a question," she said. "Yes, Miss Myers, what is it?" The young woman spoke up very clearly: "I want to ask whether you would push or pull a radish?" And that closed the controversy.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

## Pasadena. MERGER WILL REQUIRE TIME.

Pasadena Telephone Companies to Ask Extension.

Socialists Will Petition Council Relative to Park.

Notorious Bears Will Become Moving Picture Actors.

1000s of The Times, 11 S. Fair Oaks ave.) PASADENA, Sept. 17.—It will be nearly the end of October before the joint telephone service of the Pacific and Home companies that is to result from their merger will be established. Although the ordinance that made the consolidation possible contained a provision that arrangements must be made by which Pacific numbers may be called over Home instruments, or vice versa, by October 1, next, the two companies yesterday notified the City Council that they will be unable to meet the demand. An extension of time will be asked for, probably to include the greater part of next month. W. T. Moore, plant manager of the Pacific company, appeared before the Council yesterday and requested that the Councilmen make an inspection of the work that has already been done, after which a request will be made for more time, he says. He was not ready to state yesterday just when the work can be completed, but declared that a force of men have been working day and night, equipment has been ordered by express and everything possible has been done to bring about the proposed dual service by the last of this month, but that it is physically impossible to do so. The Councilmen were to have inspected the work yesterday, but the inspection was postponed, owing to the press of other business. They will visit the telephone plants some time this week.

**SOCIALISTS HAVE PETITION.**  
The Socialists, whose Sunday afternoon political meetings at Central Park were ordered discontinued by the Board of City Commissioners last Monday, have prepared a voluminous petition, which amounts in talk about free speech, and will present it to the City Council at an adjourned session, to be held today. It would have been presented yesterday had the Council had time to consider it. This petition will be discussed in conjunction with a recommendation of the City Commissioners that the parks be closed to all meetings, whether political, religious or whatever nature, with the possible exception of public exercises held on legal holidays.

**BEARS BECOME ACTORS.**  
The two bears belonging to Robert I. Pierce of No. 37 North Marengo avenue, which have been the bane of Chief of Police Wood's life for several days, were deported from the city yesterday. The Chief put them in an automobile and took them to the Wild Animal Farm, near Los Angeles, where a moving-picture company will train them to be actors. Now that he has successfully got rid of the bears, which, having passed the infant stage, have terrified many residents of the city, Chief Wood is prepared to notify the owner of their whereabouts.

Whether Pierce, now absent from the city, will have to pay a bill on his return for their keep, or whether he will then be made the recipient of a check for their historical services is a nice question, which the Chief is leaving for others to decide. **HOUSE TURNED TOPSY-TURVY.**  
The man who walked a crooked mile and found a crooked sixpence upon a crooked stile, and who brought a crooked cat that caught a crooked mouse, and who all lived together in a little crooked house, had nothing on Carl Brown, ticket agent for the Southern Pacific Railroad in Pasadena, last night. Brown, who was married last Monday to Miss Katherine Webster in Oakland, returned to this city yesterday with his bride. He returned to a crooked house, and a crooked sixpence had fixed up at No. 250 Pearl street. But, oh! the bungalow. In his absence his fellow Aryans had decorated it. The bathtub was filled with coal, a chandelier came loose when Mr. and Mrs. Newberry reached up to turn on the light; chairs were upside down, clothes were wide open, pillows stuffed with pepper; in short, nothing that a mischievous party of friends could do to put things at sixes and sevens was left undone, not to mention some half-hundred other things that were done to the interior of the house, and several hundred yards, more or less, of bunting with which the bungalow was draped on the west side.

## LONG BEACH FRONTAGE BECOMES MORE VALUABLE.

LONG BEACH, Sept. 17.—The sale today of a piece of property on the beach, east of Pine avenue, at a price which will net the owner about 700 per cent. over the price he paid three years ago, coupled with the preparation for beginning construction of a big hotel of ten stories and an apartment-house of seven stories, all of reinforced concrete, near American avenue, on the beach, is causing comment among realty agents and owners today over the foresight of Henry P. Barbour and Frank X. Pfingner, who a few years ago secured control of all the beach frontage from Pine avenue to Alamitos avenue and held it despite the satire of other land owners and dealers.

Messrs. Pfingner and Barbour hold on and today the property, which three years ago went begging at \$125 a front foot, is worth \$500, and as it faces the bluff and is improved with a retaining wall, which cost the

the couple partially to recover from their astonishment, party of friends descended upon them.

**REGISTRATION IS LIGHT.**  
Although about 300 pupils reported at the Pasadena High School yesterday for registration only about 100 could be registered, as the others had no vaccination certificates. All pupils must either have been vaccinated within the past seven years or else bring a declaration from their parents that they are opposed to vaccinating. If which case the children will be excluded from school should there be a smallpox scare.

The fall semester at the Throop Polytechnic Institute will open next Tuesday. It is expected by Dr. James A. B. Scher, Superintendent of the institution, that the enrollment this year will far exceed that of last fall.

**TALKS OF AUDITORIUM.**  
D. M. Lignard, manager of the Hotel Maryland, announced yesterday that he is having plans drawn for an auditorium, with a seating capacity of about 50,000 persons, which he hopes may be erected in Pasadena. He stated that he has been at work on the subject for about six months and that he intends to interest business men of the city in the scheme.

No site has been definitely considered as yet, but Oak Knoll has been talked of as a possible place for the building.

**CITY BRIEFS.**  
Boys who used matches for ammunition for an air gun set fire to a shed on West Green street yesterday morning. The Dayton street fire company responded and the blaze was extinguished with slight loss. Walter Freeman, the young man who was arrested last Monday on a charge of beating a board bill at the Hotel Maryland, pleaded not guilty before Justice of the Peace Dunham yesterday and his trial was set for the next Monday. He was taken to the County Jail.

At a special meeting of the Board of Education yesterday William Loesch was awarded the contract for a school supply building, to cost \$1770. It will be built on property that the Board of Education recently acquired on Worcester avenue, immediately south of Pasadena.

Several interesting tennis tournaments are being arranged, to be played on the Hotel Maryland courts this winter. They will be managed by W. Lamprecht.

Hotel Vista del Arroyo, Pasadena. Arriaga materials at Wadsworth's. For Pasadena homes, Grable & Austin.

Hotel Maryland and Maryland Grill open all summer.

Ranches, acreage, homesteads. H. L. Hayman, La Canada.

**ARE PLANNING THE UNION.**

Pasadena and South Pasadena Are Agreed that a Consolidation Would Be Proper Thing.

**SOUTH PASADENA, Sept. 17.**—Virtually no opposition has been advanced to the proposal to consolidate Pasadena and South Pasadena. Merchants and business men generally of both cities have expressed themselves as entirely favorable to the move, and it is the intention now to bring the matter up in a concrete form, which will admit of an expression of an opinion which cannot be misconstrued.

Most practical of the plans so far proposed is the appointment of a strong Conference Committee from the leading civic bodies of the two communities, the Board of Trade of Pasadena and the Chamber of Commerce of this city. This joint committee could discuss the various phases of the situation, and after ascertaining if the sentiment is so strong as to warrant immediate action, could call a mass meeting of the voters of both cities. This would show whether the movement had reached dimensions such as to warrant the civic officials of the cities in taking the necessary legal steps to carry out the actual union. It is expected that such action will be taken early next week.

**NEWS BRIEFS.**  
A meeting of the Executive Committee of the San Gabriel Valley Inter-city Commission has been called for tomorrow at 11:30 at Christopher's, No. 58 S. Broadway. Luncheon will be served in the French room, and the business of the meeting will be discussed. All members of this committee have been requested to come qualified to discuss the subject. The meeting will be presided over by the commission, namely, the number of supervisors, the apportionment of two supervisory districts, lying wholly in the county, fixing the salary of the officers by the charter or civil service commission, and the question of what officers shall be elected.

Dr. Judson S. Gibbs, formerly of this city, died suddenly yesterday at Hinkley, ten miles from Barrow, through the caving-in of earth, while installing a pumping plant. He had lived in this city for ten years before removing to Hinkley, about one year ago. He graduated with honors in 1878 from the Medical College of Syracuse, N. Y., where he received his medical degree. He practiced medicine for a number of years, before coming to California, where he took up sanatorium work with the Hertz, Madrore sanatorium for a number of years.

## Long Beach. TO CONSTRUCT A NEW SYSTEM.

Long Beach Officials Will Provide Against Fire.

Reduced Insurance Rates Will Soon Cover Cost.

Los Angeles Boys Arrested for Stealing a Horse.

LONG BEACH, Sept. 17.—Fire Chief Shawbury and City Engineer Dewey are at work on plans for a high-pressure salt water system to be established in the business and industrial district of Long Beach. Today the two went to Los Angeles to confer with the board of underwriters relative to securing a reduction of present insurance rates in the district to be protected by the new system, and which they believe should be sufficient to make up for the cost of the system, which will be borne by the district benefited.

Under the proposed plans, a pumping station will be constructed on or near the municipal docks, connected by mains leading to the district. This location was selected because of the still water in the harbor at all times and less danger of salt or sand clogging the pipes or pumps. The estimated cost will be \$5000.

The plans will be submitted to the Council next week.

**STOLE A HORSE.**

Henry Escholtz and Max Veneer, two Los Angeles boys, were arrested last night for the theft of a horse and buggy from a street corner. They were seen near Wilmington, attention being attracted to them by their fast driving, the horse being on a dead run. The boys were taken to Long Beach and found the horse tied on a street corner. In company with police officers, he visited the Escholtz and Veneer boys. They were taken to Los Angeles. The horse, which is in a serious condition as the result of the drive, is at a local livery under treatment.

**WILL BOND THEM.**

After a red hot discussion, the commission body of the High School has agreed to pay for the equipment of the athletes, but will require a deposit of \$1 from each, returnable at the end of the season on return of the equipment. This action follows the refusal of the football squad to play unless furnished proper shoes.

**MEMORIAL HALL.**  
Announcement was made today by Adj. Davis, local officer of the Salvation Army, that the local branch is making plans for a campaign to build in Long Beach a memorial hall or barracks in memory of the late Gen. Booth, and will be the second one of that kind in the United States. The local branch has grown in the past year and new quarters are necessary. The corps plan an expenditure of \$40,000 for the building and have in eight several thousand dollars of pledges from members of regular church denominations.

**NEWS BRIEFS.**  
Rev. F. M. Rogers of the Christian Church left today for Louisville, Ky., to attend the national convention of the Christian churches, and after the session ends will make a tour of a dozen cities, visiting the various colleges, in the interest of the Berkeley Seminary, which is to be moved and located in a Southern city. He expects to be absent two months.

The First Church of Christ, Scientist, has just purchased a new property on Elm avenue, south of Fifth street, giving them a site 150x150 on which they propose to erect a magnificent Christian Science temple along the lines of the First Church in Pasadena. The purchase was made today that Architect Gray of Los Angeles is now engaged on the plans. The cost of the property was \$12,500.

Attorney John E. Daly received notice today that Judge Bordwell had dismissed the case of Hatch vs. Guerrero Development Company for lack of prosecution. This is another case in which Dr. Price, the well-known teacher, was involved, it being claimed that the doctor had received several thousand dollars and had no account. The Guerrero Development Company is in Mexico, 6000 acres, most of it undeveloped.

A Japanese fisherman struck by Capt. Frank Paschall of the launch Panama had died from a heart attack, while on duty. This gives Watts as good as smooth roads and streets as any other town may boast.

Within the past week or two there has been more or less sentiment forming toward a plan of having a new High School in Watts. The present High School is a part of the Compton High School district. In view of the fact that this city is growing so much faster than any other town around, and will furnish more pupils than any other for the Compton High School, there are those who feel that the city is entitled to such a school.

REGISTRATIONS ACCEPTED.

Pomona Board of Education Has Some Difficulty in Apportioning Students to the Various Schools.

POMONA, Sept. 17.—The local Board of Education met last evening and accepted the resignations of Miss Mabel Gruwell and Miss Helen Balmbridge of the grade schools and confirmed the appointment of Miss Edith Wyman and A. L. Dixon as teachers in the High School. Residents in the southwest part of Pomona presented a petition protesting against the proposed new plan of eliminating the primary grades from the Hamilton-Kaufman and Sixth-street schools. The board will furnish means of transportation for the grade pupils to the Hamilton-Kaufman schools. The petition from the Hamilton-Kaufman schools was received and filed and after the merits of the proposed

plan were explained to them, they were apparently much more satisfied. Yesterday afternoon on the High School campus about fifty young men were out for Rugby practice and the season's team will soon be selected for the local school will play Santa Barbara High School here a week from Saturday.

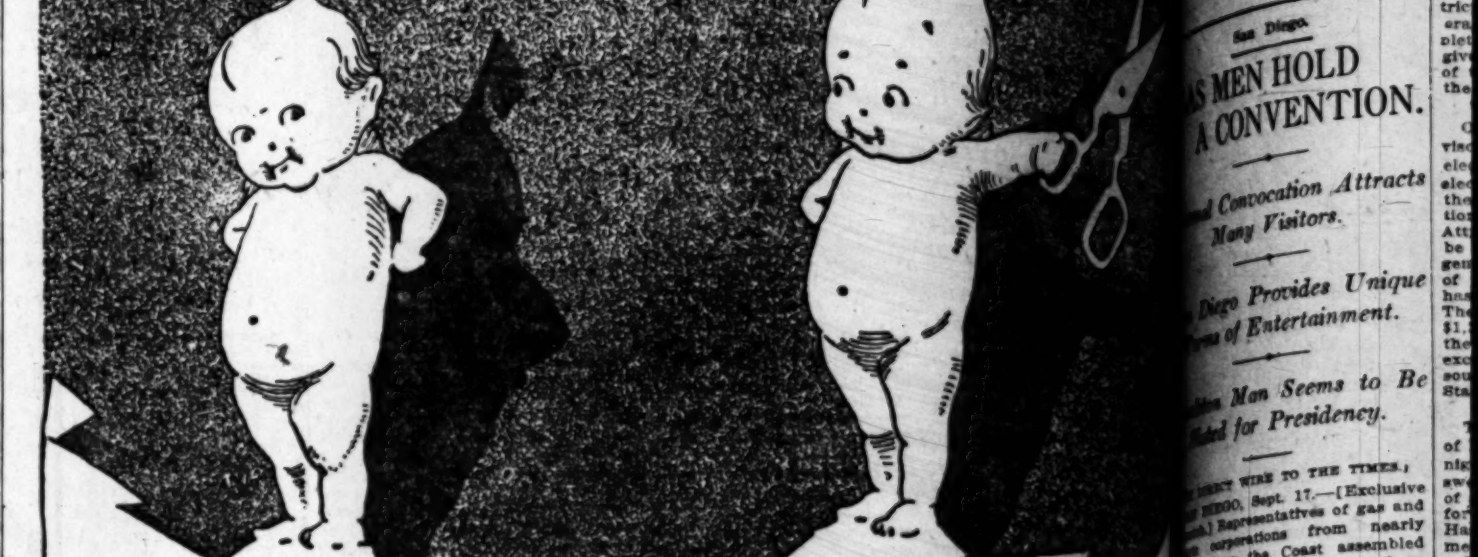

Mr. and Mrs. Harry Mishler of East Fifth avenue are considerably worried over the press dispatches regarding the capture of Douglas, Ariz., telling of the capture by the Mexican rebels of the El Tigre Mining Company's property in Mexico, where their son, Ralph Mishler, is assistant superintendent. Mishler is being held with other officials of the company by the rebels, who are demanding \$100,000 gold as ransom for the settlement of El Tigre.

M. Cunard of Glendora, a visitor at Ganesha Park, attempted friendly overtures at the "zoo" with the brown bruin, which W. A. Snyder presented to the park management some time ago. Cunard thrust his hand through the cage bars to stroke the bear's paw, when bruin quick as a flash, released the friendly overtures, struck at the hand and laid open the back of it with a sharp claw. The wound bled profusely and the injured man was taken to the Pomona Valley Hospital, where it was necessary to take several stitches to close the wound.

The opening of the local High School occurred yesterday morning with an attendance of about 415. This is the largest registration in the history of the school and a most successful year is anticipated. The day was taken up with the details and duties of properly classifying and listing the students and the regular work commenced today.

**ACTIVE LIFE ENDED.**

HOLLYWOOD, Sept. 17.—Mrs. Elizabeth Treco Lippincott, wife of John A. Lippincott, died at the family home, No. 5228 Franklin avenue, last night after a few days' illness. Pneumonia caused death. Mrs. Lippincott was for several years active in the work of securing female suffrage and was also prominent among the leaders in the Woman's Relief Corps and the Woman's Christian Temperance Union. She leaves a widower and one son, Charles H. Lippincott. The funeral will be held Wednesday afternoon at 2 o'clock at the family home, and a brief service will be conducted later at the Hollywood Cemetery by Stanton Post.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

**BOND ELECTION.**  
On Thursday the Board of Supervisors will call the good roads bond election. It has been agreed that the election will be held on November 4, the day preceding the general election. Fearing a technicality, District Attorney West advised that the election be not held on the same day as the general election. The report and map of the County Highway Commission has been revised and finally accepted. The amount of bonds to be asked is \$1,370,000 for the improvement of all the important roads of the county except the main road from north to south, which will be improved by the State.

**BRIEF NEWS.**

# VETERANS NOT ENTHUSIASTIC.

San Bernardino Grand Army Men Are Optimistic.

**Suspended Patrolman Resigns from the Force.**  
**Four Youngsters Elope and Wed at Midnight.**

**San Bernardino, Sept. 17.**—Capt. J. L. Hattery one of the foremost G.A.R. men here, speaking of the annual encampment at Los Angeles today said that the most striking feature was the almost total absence of third-term boosters. Comrade Peterson, also a prominent veteran corroborates Capt. Hattery.

**There are no Bull Moosers among the Grand Army men,** said Capt. Hattery, "if our experience at Los Angeles, where veterans from all over the country were gathered can be taken as a criterion."

**That we should have found not a single advocate of the man who aspires to a third term strikes me as most unusual.** Judged by conditions here in California I was prepared to find about all the old soldiers ready to vote their hats for Teddy. But I have made up my mind that California is no fair test of the sentiment of the country at large.

**Patrolman Quits.**  
L. Bigger, policeman, who was suspended for two weeks by the chief for failure to observe the regulations, and then appealed to the City Council from the suspension order only to be turned down, has now resigned from the force. Bigger's suspension followed the return of the chief from a vacation. He found that during his absence almost every officer had violated the regulations, one even going to Los Angeles on a joy ride during the night when he was supposed to be on duty.

**Four Made Happy.**  
Two youthful couples from Arlington eloped to this city in a big touring car late last night and waking up Miss Clara Post, married license clerk, secured licenses and were married by the Rev. Charles N. Queen as the town clock struck midnight. The runaways were Alphonse Callahan, age 21, and Rose Pauchan, age 19, and Nathan O. Winslow, age 21, and Myrtle Callahan, age 19. The lovers freely admitted their elopement, explaining that they had only decided at 7 o'clock last night to pull off the romance.

**Organizer Has Much Trouble.**

**JAILED AT SANTA BARBARA ON A SERIOUS CHARGE.**

**Claims that His Trouble Is Due to an Indignant Mother, Whose Daughter He Assisted in an Elopement Project—Honey-mooners Spend Cheerless Hours.**

**Santa Barbara, Sept. 17.**—When E. J. Harper, managing supreme organizer for the Fraternal Golden Neptunes and Golden Maidens, assisted his landlady's daughter to elope one day last week, he lit the thought the "romantic" wedding would be followed by his incarceration in the Santa Barbara Jail. But, talking through the prison bars last night, he said that and that alone was responsible for his plight.

**Harper was arrested upon a warrant sworn to by Dr. Warren Taylor, who claimed that Harper obtained \$5 from him under false pretenses.** Harper declares that he accepted the money as an initiatory fee into the lodge he represents and that he would not have been arrested had it not been for the alleged activity of Mrs. Cotton, whose daughter, Lulu, ran away to Ventura and married V. S. Brugh-ton. Harper helped the young lady get away from home and made the trip to Ventura with the elopers, acting as best man at the wedding. The mother was infuriated and Harper thinks she took her spite out on him, though she denies it.

**Dr. T. J. Randall of Los Angeles, supreme organizer of the order, arrived on the scene last night but did not furnish cash bail of \$250 and the young man had to remain in jail.**

**HONEYMOONERS' SAD PLIGHT.**  
Mr. and Mrs. L. W. Barney, wealthy young people of La Jolla, San Diego county, on a bridal tour in an automobile, spent five cheerless hours in the Castles roadside last night. Their auto broke down at 5 o'clock, when they were about half way across the mountain. A call for help was sent to a Santa Barbara garage and Harry Wood went to their assistance. It was midnight before he had the disabled car and the marriage honeymooners in Santa Barbara. The elopers are stopping at the Potter, but will resume their journey north in a few days.

**SLIGHT CLEW TO RANDIT.**  
Chief of Police Ross yesterday received word from the deputy marshal of Fernando that a man answering the description of the bandit who held up and killed John McDonough in a local saloon two weeks ago, had robbed the Southern Pacific depot in that place. The robber wore a gunnysack and was about five feet six inches tall. A mask made out of a gunnysack is extraordinary and Chief Ross

## DODGERS BREAK WINNING STREAK OF PIRATE TEAM.

Old Nap Rucker Proves a Hoodoo Flinger for Clarke's Ambitious Club—Cubs Tounce the Giants Again in Light Hitting Contest, While Boston Takes a Fall Out of St. Louis.

[BY FEDERAL (WIRELESS) LINE TO THE TIMES.]

BROOKLYN, Sept. 17.—[Special Dispatch.] After winning twelve straight games, Pittsburgh slipped up in the attempt to make it thirteen. Nap Rucker was the cause. His speed was baffling. Clarke used four pitchers but none was able to hold the Dodgers.

ST. LOUIS, Sept. 17.—[Special Dispatch.] The league leaders dropped both games of a double-header today, showing a plain let-up in their work.

The first game went eleven innings after Boston had tossed away several chances to win it through careless play. The second was called on account of darkness in the fifth inning.

## HEMET LOWERS RACE RECORD.

Sets New Mark for Three-Year-Old Pacers.

**Occident Stake Won Easily by Speedy Albaloma.**

(BY A. P. NIGHT WIRE TO THE TIMES.)

SACRAMENTO, Sept. 17.—The State Fair record for the three-year-old pacers was broken today by Hemet in the State Fair Futurity. The Zombro-Lady Woolsey gelding paced the second heat in 2:14 1/2, which bettered Little Lucille's mark by one second. Hemet had little trouble winning the race in straight heats, and with competition would likely have reduced the mark. Hemet is owned by W. F. Whittier of Hemet, Cal.

**Good Ones Left, Says Hen.**

Speaking of drafted Berry says that there are just as big fish in the Coast League as those who were hooked. "Every man drafted," said Berry, "is a sterling player, but there are so many good ones left that the league will continue to wave."

**Hogan to Draft Three.**

Now that the major leagues have had their turn, the Coast League and other class A organization will do a little drafting, starting next Sunday, or two days after the close of the major-league drafting season. Hogan will put in three drafts, and hopes in this way to land a pitcher, a catcher and an infielder. Berry says that if he puts in a draft at all it will be for pitcher Edmonson, recently purchased by Vernon from the Houston club. According to the revised national agreement, minor-league clubs are prohibited from buying or selling players within twenty days of the major-league drafting season. Berry now has ten pitchers, and should he draft Edmonson, it will be purely for the pleasure of putting one over on "Happy." Hogan refuses to become perturbed over the rumor that Berry may draft Edmonson. "It might develop that I put through the deal for Edmonson two months ago if it came to a show-down," said "Happy," chuckling at the humor of the situation. Berry and Hogan are not deadly enemies personally, but they do delight in jockeying each other out of a player now and then.

**Some Surprises.**

The Senators were surprised. They handed out a better brand of ball than the fans expected. They improved a hundred per cent over their previous form, if today's showing can be taken as a criterion. The fans don't bring themselves to understand how their boys ever managed to make such a wonderful campaign in the south. They must wake up from now on or nobody will believe the same team ever routed Vernon and Los Angeles.

## FOOTBALL TO START WITH ROSY PROSPECTS.

BY OWEN R. BIRD.

THE OXY held was alive with veterans, out for a little preliminary warm-up, yesterday afternoon, but the real football season for the Tigers will be ushered in this afternoon at 2:30 o'clock. Reports are rife on the campus of new freshmen with long records. As each one of these "Pen Green" members hits the office of the Registrar, his weight, age and probable place on the team is discussed. From these signs it looks as though the Tiger was due to come back this season after long years of reverses. There never was a better chance. In the first place only three of last season's team will be missing and the
